Fredericksburg, Texas (April 2025) – Cimarron Firearms, the premier name in authentic Old West firearm replicas, are pleased to announce, via Mike Harvey's popular "BOOM" video series, the newest edition to the Pistolero® and Lightning® series: the 9mm.

Cimarron introduced the Lightning to the American public over 20 years ago. Based on an Uberti Lightning Stallion model, which was pulled off the market due to soft sales, Harvey reimagined it for the modern shooter with a lighter frame and comfortable birds head grip that allows fast target acquisition. The new Cimarron Lightning revolver went on to become one of Cimarron's most popular and best-selling revolvers. Several years ago, Harvey suggested offering the Lightning in 9mm but was met with

resistance on the European side due to its military nature. Persistence paid off, and the [Cimarron Dual Cylinder .38 Special/9mm](#) is now available in the US. The pistol comes with its fluted .38 cylinder and a 9mm smooth, or non-fluted, cylinder. The new Lightning in 9mm is a perfect home defense or small game hunting revolver in a standard blue and case-hardened finish with smooth walnut grips for an MSRP of \$784.46. Available in a 3 ½" barrel and 4 ¾" barrel.

The [Pistolero](#), Cimarron's classic Western revolver styled with a brass backstrap and trigger guard, smooth as silk action, is also now available as a Dual Cylinder 9mm. The 4 ¾" barrel and color case-hardened frame in standard blue comes with Cimarron's smooth walnut grip for a highly affordable \$695.83.
