FOR IMMEDIATE RELEASE

Hydra Weaponry Launches Memorial Day Sale

Save 20 percent sitewide now through May 31, 2025, with code REMEMBER.

Hampden, Maine (May 2025) – Hydra Weaponry, Maine’s largest firearms employer, designer, and manufacturer of the truly modular Hydra® Weapon System, announces its Memorial Day Sale, offering 20 percent off all products sitewide now through May 31, 2025. Use code REMEMBER at checkout to honor our nation’s heroes with savings on groundbreaking firearm technology.

Known for pushing the envelope of small arms innovation, Hydra Weaponry combines modularity, legacy platforms, and precision engineering to deliver firearms that adapt to mission-specific requirements. Two notable systems featured in the sale include the BMP-23 pistol and the new Hydra-10 chambered in 8.6 Blackout.

The [BMP-23](#) is a contemporary reimagining of the Bushmaster Arm Pistol, originally designed by Mack Gwinn Jr. in the early 1970s. Chambered in 5.56 NATO, it features an 11.5-inch barrel, AK-style gas piston operating system, and a lightweight aluminum/steel chassis weighing just 5.2 lbs. Designed for ambidextrous use, the pistol incorporates a 40-degree swivel and integrated iron sights, making it a compact yet capable solution for both collectors and tactical users.

The Hydra-10, Hydra Weaponry's modular AR-10 platform, is [now available in 8.6 Blackout](#) with a 16-inch barrel configuration. This rifle runs on SR-25 magazines, features DPMS-patterned compatibility, and ships with Hydra's proprietary Quick-Change Barrel Upper Receiver (QCB-D). Designed for versatility, the Hydra-10 system allows for rapid caliber conversions by swapping the barrel and bolt – ideal for users operating across multiple applications. The rifle is outfitted with a B5 Systems stock and pistol grip and is purpose-built for those seeking maximum adaptability with the stopping power of a larger caliber.

Hydra Weaponry's Memorial Day Sale represents a strategic opportunity for enthusiasts, hunters, and professionals to upgrade their systems with field-tested innovation and unmatched modularity. With roots in historical firearm platforms and an eye toward the future of adaptive weapons technology, Hydra Weaponry continues to deliver solutions that meet the evolving needs of today's end users.

About Hydra Weaponry:

Headquartered in Maine, [Hydra Weaponry](#) has 50 years of firearms innovation in its DNA. Starting with the development of the Bushmaster pistol, rifle, and submachine gun, the Gwinn family has set a high standard of designing innovative firearm platforms built around the actual needs of tactical operators, often fighting in extreme conditions and environments. The Hydra-15 Modular Weapons System is the ultimate modular platform that designer Mack Gwinn, Jr. created to meet the criteria of modularity, durability, consistent performance, accuracy, and affordable. Hydra Weaponry is the future of small arms.
