Introducing the TT MODULAR CAMERA PACK 30 from Tasmanian Tiger®

Purpose-built 30L modular pack offers tactical durability and customizable camera storage for professionals on the move.

Knoxville, Tenn. (May 2025) – [Tasmanian Tiger®](http://TasmanianTiger.com), a tactical nylon line of products distributed exclusively for the US market by Proforce Equipment, Inc., proudly announces the launch of its new [TT MODULAR CAMERA PACK 30](#) to the U.S. market. Designed for professional photographers, field journalists, outdoor professionals, and content creators, this 30-liter pack combines proven tactical features with a fully modular camera insert system for unparalleled versatility and comfort in the field.

With both front access and an additional top opening, the TT MODULAR CAMERA PACK 30 allows photographers to quickly retrieve their camera gear on the go. The main compartment features a functional interior layout with adjustable padded partitions for cameras and lenses, which can be completely removed for general-purpose use. A

removable zip-up organizer pocket provides secure storage for small accessories such as memory sticks and filters, while hook-and-loop patches inside and out allow for labeling or identification.

Constructed from durable CORDURA® 700 den, the pack is equipped with a padded back carrying system for long-wear comfort and a height-adjustable chest belt to support different body types. The padded hip belt can be removed and worn separately as a tactical warrior belt and features laser-cut MOLLE webbing to attach accessories like lens pouches. Additional MOLLE panels on the front and sides of the backpack offer even more modular attachment options.

Practical design touches include a camera holder integrated into the shoulder strap for quick access, a sturdy carry handle, a zippered lid pocket, and deep side pockets sized to hold a tripod, which can be secured using lateral compression straps. The zippers on the main compartments are equipped with lockable sliders for added security, and an integrated rain cover is stored in the bottom compartment to protect gear in wet conditions.

The TT MODULAR CAMERA PACK 30 was built for professionals who need rugged, field-ready camera storage that doesn't compromise on comfort or functionality. This pack bridges the gap between tactical load carriage and high-performance photography gear.

The TT MODULAR CAMERA PACK 30 weighs 5.3 lbs. / 2.4 kg. and measures 23 x 11 x 7.5 in. / 58 x 28 x 19 cm. It is available in Black and Olive for an MSRP of \$449.00.

About Tasmanian Tiger®

Tasmanian Tiger®, a division of Tatonka GmbH, is an international brand founded in 1999 to provide user-design-driven nylon products to elite warfighters and law enforcement in Europe, Asia, and now North America. From prototype to production, all products are manufactured in the company's own facilities, thus ensuring a consistently high level of quality throughout the production processes. All products are quality-checked before leaving the facility and checked regularly by independent international test centers.
