Big Horn Armory (BHA) Announces Black Friday Free Shipping Deal

From Friday, Nov. 28, through Monday, Dec. 1, 2025, receive FREE SHIPPING with code BF25 on all orders at www.bighornarmory.com.

Cody, Wyo. (November 2025) – [Big Horn Armory \(BHA\)](http://www.bighornarmory.com), makers of big-bore firearms, is turning up the heat this holiday season. From Friday, Nov. 28, through Monday, Dec. 1, 2025, customers can score free shipping on all orders at www.bighornarmory.com with promo code BF25. Whether you're a back-country hunter chasing the biggest game, a high-end collector who demands legacy quality, or an AR enthusiast who refuses to compromise, this is your moment.

“At BHA, we don't build average firearms — we build guns you wake up looking forward to shooting,” commented Greg Buchel, founder of Big Horn Armory. “This Black Friday deal is our way of giving our customers a real opportunity to step into something legendary without worrying about the shipping cost.”

Big Horn Armory's foundation lies in its lever-action rifles — the kind of rugged, high-quality pieces one doesn't just carry, but trusts. The [flagship Model 89](#), chambered in the hard-hitting .500 S&W Magnum,

is built from 17-4 stainless steel, fitted with American black-walnut stock, and engineered for serious field performance. The [Model 90 series](#), available in .460 S&W, .454 Casull, and .45 Colt, extends BHA's trailblazing legacy by combining modern CNC machining with rugged design. These aren't safe-queen showpieces — they're heirlooms built for action, built for the hunt, and built to last.

For those whose appetite runs bigger than standard AR-platform limitations, the [AR500 NEXT GEN line](#) delivers unfiltered performance. Chambered in the proprietary .500 Auto Max cartridge — a rimless variant of the .500 S&W Magnum — this rifle is the most powerful AR firearm available. With bullets from 350 to 700 grains and uppers compatible with DPMS-style lowers (or complete [rifles](#) or [pistols](#)), the Next Gen line gives shooters an all-in tool for raw energy, rapid fire capability, and ruthless versatility. For those who demand more than just a “standard” build, the AR500 silhouette represents BHA's “go big or go home” philosophy.

The Big Horn Armory experience doesn't stop at the rifle. From [scabbards](#), [butt cuffs](#), and [Alaskan slings](#) for the lever-action line to dedicated AR500 accessories, like the [8-round magazine](#) and [AR Rhodesian sling](#), BHA offers gear designed to complement the firepower. These [accessories](#) aren't just afterthoughts; they're engineered components meant to round out a serious build for serious users.

Make your move between Friday, Nov. 28, and Monday, Dec. 1, 2025. Visit www.bighornarmory.com, select your rifle or accessories, and apply the code BF25 at checkout to unlock free shipping. It's an ideal time to step into something bold before holiday shipping windows tighten.

About Big Horn Armory:

Big Horn Armory was founded in 2008 with the expressed intention of designing a Browning-type lever-action gun chambered in 500 Smith & Wesson Magnum. The Big Horn Armory Model 89, made in America, closely follows the work of John Browning with refinements courtesy of modern metallurgy and machining capabilities. The first rifles began shipping in September of 2012, and since then, BHA has added to its big bore lineup with a Model 90 Carbine in 460 S&W, the Model 90A in 454 Casull, the Model 90B in .45 Colt, the Model 89A in 500 Linebaugh, and the Model 89B in .475 Linebaugh. In 2017, Big Horn Armory took a departure from its lever-action series and developed the AR500 Auto Max, the most powerful short-range, semi-automatic based on an AR .308 platform.
