FOR IMMEDIATE RELEASE

Caracal USA® Awarded Government Contract in The Bahamas for CMP9K Platform

Agreement reinforces Caracal USA®'s growing presence and trusted reputation among Caribbean government agencies.

Nampa, Idaho (March 2026) – [Caracal USA®](http://www.caracalusa.com), a leading U.S.-based manufacturer of small arms for the law enforcement and defense markets, announced today that it has secured a new supply contract with various government agencies in The Bahamas for the CMP9K platform. The award reflects Caracal USA's continued expansion throughout the Caribbean and highlights the company's reputation for delivering reliable, modern weapon systems to professional end users.

The CMP9K is a compact 9x19mm NATO semi-automatic platform built around Caracal USA's advanced blowback operating system, engineered to provide consistent reliability with minimal felt recoil. Designed for duty and tactical applications, the lightweight system incorporates fully ambidextrous AR/M4-style controls, allowing intuitive operation and seamless integration into existing training programs.

The platform features a 6-inch cold hammer forged barrel, all-aluminum machined upper and lower receivers for durability, and a modular accessory interface including a 1913 Picatinny rail and M-LOK mounting points. The design also supports reliable feeding from 30-round MP5-pattern magazines and offers multiple configuration options to meet mission-specific requirements.

The contract represents another milestone in Caracal USA's ongoing commitment to supporting allied government agencies and regional partners with dependable and innovative firearm solutions.

"Working with our Caribbean regional representatives, I.I. & E, Caracal USA products have become well known with the government agencies of Caribbean nations," said Jeffrey Spalding, CEO and President of Caracal USA. "Our dedication to safety, reliability, and durability has proven to showcase the quality of Caracal USA weapon systems and allowed us the opportunity to compete within tender solicitations and be awarded supply contracts for new modern weapon systems to the Bahamas."

Caracal USA continues to strengthen its relationships with international partners and regional representatives to deliver advanced firearms platforms that meet the operational needs of military and law enforcement professionals worldwide.
